ENDOPATH® Probe Plus II
Multi-Functional Electrosurgery System

Enhanced pistol grip handle offers improved ergonomics and controls to help surgeons maintain focus on the operative field*

*Compared to previous ENDOPATH® Probe Plus II models.
Irrigation, suction, and cautery in a single device

The **ENDOPATH® Probe Plus II** Multi-Functional Electrosurgery System facilitates tissue dissection, coagulation, irrigation, and fluid evacuation.

The complete system is designed to:

- meet a wide variety of surgical needs
- facilitate one-handed use
- increase surgical efficiency through less instrument exchanges
Electrosurgery system highlights

✓ Performs dissection, coagulation, irrigation, and fluid evacuation

✓ Offers **two handles** and **seven electrode/shaft options**

✓ Features an improved pistol grip handle for optimized ergonomics, making device controls feel second nature

✓ 5 mm shaft diameter can be used with a variety of trocar sizes

✓ Is compatible with commonly used irrigation and suction devices, as well as monopolar electrosurgery units

✓ Features interchangeable shafts that allow for multiple configurations, eliminating the need for additional devices
Enhanced pistol grip handle for optimized ergonomics

Now requires 73% less force to activate suction and irrigation buttons*

1. Electrosurgery hand control
2. Irrigation control
3. Suction control
4. ESU cable
5. Fluid line fittings
6. Handle
7. Shaft connector

*Compared to previous ENDOPATH® Probe Plus II models.
ENDOPATH® Probe Plus II 2016 system components

Ethicon is focused on providing products that can be used to perform multiple tasks.

Hand Controlled Pistol Grip Handle

Hand Controlled Pencil Grip Handle

34 cm electrodes:
- Hook Electrode, Hollow Tip
- Spatula Electrode, Hollow Tip
- Right Angle Electrode, Hollow Tip
- Curved Dissector Electrode, Hollow Tip

29 cm electrodes:
- Hook Electrode, Hollow Tip
- Spatula Electrode, Hollow Tip
- Right Angle Electrode, Hollow Tip
